Dr. J. Bradfield: Bear Sir—Some fifteen years ago I examined the recipe of Female Regulator, and carefully studied authorities in regard to its components, and then (as well as now) pronounce it to be the most scientific and skillful combination of the most really reliable remedial vogetable agents known to science, to act directly on the womb and uterine organs, and the organs and parts sympathizing directly with these; and, therefore, providing a specific ramedy for all diseases of the womb, and of the abjacent organs and parts.

Yours truly,
